

JOIN OUR TEAM!

Acupuncturists, Naturopathic Doctors, and Chiropractors: do you want to work with Athletes, Families, and Proactively Health-Conscious Adults?

We've Built the Reputation You Need to Succeed!

- Golden Chiropractic has focused on developing a strong and engaging social media presence.
- We have refined our messaging to the point where engaging content has begun to create a strong relationship between our practice and our patients.
- We have systemized an outreach strategy that brings new patients from multiple touch points within the community.
- We have successfully developed collaborative partnerships that extend our reach to our targeted patient base.

At Golden Chiropractic we learn from one another and make each other better practitioners.

"It's always beneficial to work amongst practitioners of varying expertise. This makes for an environment that is multifaceted in its approach to health and the care of each individual patient. This also benefits the practitioner because we have more tools to work with and more perspectives to help with a true comprehensive plan to reach the health goals of our patients. And, it's fun!"

~ Carmen McIntyre, L.Ac.
